

'Welcome Wagon' for Baptiste Lake

The 'Welcome Wagon' program was initiated in 2008 by the Baptiste Lake Association as a method of welcoming, as well as informing new lake front residents about the responsibilities associated with 'living by the water.' It is our hope that by doing this we can impress upon our new neighbours the importance and value of protecting the waters of Baptiste Lake and its watershed for the sake of future generations. If the water becomes contaminated, then naturally all properties are affected and one's investment diminishes.

This isn't the usual welcome wagon where we give out 'freebies' but it does have a wealth of information regarding lake stewardship.

Some of the information included concerns septic systems, cleaning supplies and soaps, The Baptiste Lake Plan, the values of the riparian zone, current BLA Newsletters and an invitation to join the Baptiste Lake Association. We are working hard on your behalf to protect the lake community and what we all hold dearly....its natural beauty.

Please let me know if you are 'new' to the lake or if you know anyone who is, by phoning Chris Chhatwal @ 1-519-669-2938 or in the summer 1-613-332-5167 or email to chrischhatwal@hotmail.com

I will be glad to personally deliver one of our Welcome Wagon folders to you and your family. Thank you.

Chris Chhatwal
